

Lean for Environmental Sustainability

[wptabs style="wpui-alma" effect="fade" mode="horizontal"]

[wptabtitle]Description[/wptabtitle]

[wptabcontent]

In this three-day workshop, we will explore practical ways to create a greener workplace and how lean thinking and lean tools not only make this a planet-friendly organization, but also a more profitable one.

[/wptabcontent]

[wptabtitle]Objectives & Outcomes[/wptabtitle]

[wptabcontent]

- Develop as system for measuring and tracking the carbon footprint of the organization
- Conduct an analysis on the toxins used in the workplace and make a dispensation plan to reduce the toxins in the workplace
- Discuss environmental stewardship from a community perspective and from a financial perspective
- Describe how lean restructuring has a positive impact on the environment

[/wptabcontent]

[wptabtitle]Target Audience[/wptabtitle]

[wptabcontent]

This workshop is designed for trainers and change agents, human resources managers and operations leaders.
