

ILS Work System Diagnostic

We have developed this assessment instrument to allow you to check your progress, set new goals, and hold yourselves accountable to continuous improvement throughout your organization. This is a comprehensive tool, offering detailed guidelines for 5 levels of performance in 5 critical work areas: People Development; Safety, Ergonomics and Environmental; Quality; Work and Just-In-Time; and Leadership.

We offer this tool as a complimentary download, but we do ask that you register with our website. We will follow up with you to help answer any questions you may have about the diagnostic and our services.
